

## Event Calendar

---

### May 2025

#### 01 — Thursday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### 02 — Friday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### 03 — Saturday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### 04 — Sunday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### 05 — Monday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### 06 — Tuesday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### 07 — Wednesday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### 08 — Thursday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **09 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **10 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **11 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **12 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **13 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **14 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **15 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **16 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **17 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, May 17/18, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

## **18 — Sunday**

08:15 — 17:30 Safety & Sea Survival Refresher Course May 18, includes wet drills with wind, wave generator

Marine SafetyWorks utilises The ACE Training Centre for this course which is chosen specifically to provide the most realistic wet drill training experience with sound and light effects and wave simulations, followed by theory & workshop sessions onsite.

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, May 17/18, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

## **19 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

17:30 — 21:45 Marine First Aid, May 19, 2025 FA68

This course applies First Aid training for the inshore and offshore marine environments and includes information for ongoing care at sea until assistance arrives. The certificate issued is the Workplace Approved HLTAID003 Provide First Aid.

17:30 — 22:00 Marine First Aid, Courses May - October 2025

This course applies First Aid training for the inshore and offshore marine environments and includes information for ongoing care at sea until assistance arrives. The certificate issued is the Workplace Approved HLTAID003 Provide First Aid.

## **20 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **21 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **22 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **23 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **24 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **25 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **26 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **27 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **28 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **29 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **30 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **31 — Saturday**

09:00 — 17:30 Safety & Sea Survival Course May 31, June 1 RSAYS, SA

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

# **June 2025**

## **01 — Sunday**

09:00 — 17:30 Safety & Sea Survival Course May 31, June 1 RSAYS, SA

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **02 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **03 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide

the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **04 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **05 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **06 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **07 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **08 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **09 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **10 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **11 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **12 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **13 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **14 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, June 14/15, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

## **15 — Sunday**

08:15 — 17:30 Safety & Sea Survival Refresher Course June 15, includes wet drills with wind, wave generator

Marine SafetyWorks utilises The ACE Training Centre for this course which is chosen specifically to provide the most realistic wet drill training experience with sound and light effects and wave simulations, followed by theory & workshop sessions onsite.

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, June 14/15, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

## **16 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

17:30 — 22:00 Marine First Aid, Courses May - October 2025

This course applies First Aid training for the inshore and offshore marine environments and includes information for ongoing care at sea until assistance arrives. The certificate issued is the Workplace Approved HLTAID003 Provide First Aid.

17:30 — 21:45 Marine First Aid, June 16, 2025 FA69

This course applies First Aid training for the inshore and offshore marine environments and includes information for ongoing care at sea until assistance arrives. The certificate issued is the Workplace Approved HLTAID003 Provide First Aid.

## **17 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **18 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **19 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **20 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **21 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **22 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **23 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **24 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **25 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **26 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **27 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **28 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **29 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **30 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

# **July 2025**

## 01 — Tuesday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## 02 — Wednesday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## 03 — Thursday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## 04 — Friday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## 05 — Saturday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, July 5/6, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

## 06 — Sunday

08:15 — 17:30 Safety & Sea Survival Refresher Course July 6, includes wet drills with wind, wave generator

Marine SafetyWorks utilises The ACE Training Centre for this course which is chosen specifically to provide the most realistic wet drill training experience with sound and light effects and wave simulations, followed by theory & workshop sessions onsite.

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, July 5/6, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

## 07 — Monday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

17:30 — 22:00 Marine First Aid, Courses May - October 2025

This course applies First Aid training for the inshore and offshore marine environments and includes information for ongoing care at sea until assistance arrives. The certificate issued is the Workplace Approved HLTAID003 Provide First Aid.

17:30 — 21:45 Marine First Aid, July 7, 2025 FA70

This course applies First Aid training for the inshore and offshore marine environments and includes information for ongoing care at sea until assistance arrives. The certificate issued is the Workplace Approved HLTAID003 Provide First Aid.

## **08 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **09 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **10 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **11 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **12 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **13 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **14 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **15 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **16 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **17 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **18 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **19 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **20 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **21 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **22 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **23 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **24 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **25 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **26 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **27 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **28 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **29 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **30 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **31 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

# **August 2025**

## **01 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **02 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **03 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **04 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **05 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **06 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **07 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **08 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **09 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **10 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **11 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **12 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **13 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **14 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **15 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **16 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **17 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **18 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **19 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **20 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **21 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **22 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **23 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **24 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **25 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **26 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **27 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **28 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **29 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **30 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **31 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

# **September 2025**

## **01 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **02 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **03 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **04 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **05 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **06 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide

the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **07 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **08 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **09 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **10 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **11 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **12 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **13 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, Sept 13/14, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

## **14 — Sunday**

08:15 — 17:30 Safety & Sea Survival Refresher Course Sept 14, includes wet drills with wind, wave generator

Marine SafetyWorks utilises The ACE Training Centre for this course which is chosen specifically to provide the most realistic wet drill training experience with sound and light effects and wave simulations, followed by theory & workshop sessions onsite.

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, Sept 13/14, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

## **15 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

17:30 — 22:00 Marine First Aid, Courses May - October 2025

This course applies First Aid training for the inshore and offshore marine environments and includes information for ongoing care at sea until assistance arrives. The certificate issued is the Workplace Approved HLTAID003 Provide First Aid.

17:30 — 21:45 Marine First Aid, Sept 15, 2025 FA71

This course applies First Aid training for the inshore and offshore marine environments and includes information for ongoing care at sea until assistance arrives. The certificate issued is the Workplace Approved HLTAID003 Provide First Aid.

## **16 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **17 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **18 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **19 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **20 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **21 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **22 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **23 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **24 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **25 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **26 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **27 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **28 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **29 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **30 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

# **October 2025**

## **01 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **02 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **03 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide

the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **04 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **05 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **06 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **07 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **08 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **09 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **10 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

#### **11 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, Oct 11/12, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

#### **12 — Sunday**

08:15 — 17:30 Safety & Sea Survival Refresher Course Oct 12, includes wet drills with wind, wave generator

Marine SafetyWorks utilises The ACE Training Centre for this course which is chosen specifically to provide the most realistic wet drill training experience with sound and light effects and wave simulations, followed by theory & workshop sessions onsite.

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide

the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, Oct 11/12, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

### **13 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

17:30 — 22:00 Marine First Aid, Courses May - October 2025

This course applies First Aid training for the inshore and offshore marine environments and includes information for ongoing care at sea until assistance arrives. The certificate issued is the Workplace Approved HLTAID003 Provide First Aid.

17:30 — 21:45 Marine First Aid, Oct 13, 2025 FA72

This course applies First Aid training for the inshore and offshore marine environments and includes information for ongoing care at sea until assistance arrives. The certificate issued is the Workplace Approved HLTAID003 Provide First Aid.

### **14 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

### **15 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

### **16 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

### **17 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

### **18 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

### **19 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

### **20 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **21 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **22 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **23 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **24 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **25 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **26 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **27 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **28 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **29 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **30 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **31 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## November 2025

### 01 — Saturday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, Nov 1/2, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

### 02 — Sunday

08:15 — 17:30 Safety & Sea Survival Refresher Course Nov 2, includes wet drills with wind, wave generator

Marine SafetyWorks utilises The ACE Training Centre for this course which is chosen specifically to provide the most realistic wet drill training experience with sound and light effects and wave simulations, followed by theory & workshop sessions onsite.

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, Nov 1/2, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

### 03 — Monday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

### 04 — Tuesday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

### 05 — Wednesday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

### 06 — Thursday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

### 07 — Friday

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **08 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **09 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **10 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **11 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **12 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **13 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **14 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **15 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **16 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **17 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **18 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **19 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **20 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **21 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **22 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **23 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **24 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **25 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **26 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **27 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **28 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **29 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, Nov 29/30, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

## **30 — Sunday**

08:15 — 17:30 Safety & Sea Survival Refresher Course Nov 30, includes wet drills with wind, wave generator

Marine SafetyWorks utilises The ACE Training Centre for this course which is chosen specifically to provide the most realistic wet drill training experience with sound and light effects and wave simulations, followed by theory & workshop sessions onsite.

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

10:00 — 17:30 Safety & Sea Survival Course, Nov 29/30, includes wet drills with wind, wave generator

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre which is chosen specifically to provide the most realistic wet drill training experience with sound/light effects, and wave simulation.

# **December 2025**

## **01 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **02 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **03 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **04 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **05 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **06 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **07 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **08 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **09 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **10 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **11 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **12 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **13 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **14 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **15 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **16 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **17 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **18 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **19 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **20 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **21 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **22 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **23 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **24 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **25 — Thursday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **26 — Friday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **27 — Saturday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **28 — Sunday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **29 — Monday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **30 — Tuesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.

## **31 — Wednesday**

10:00 — 23:45 Marine SafetyWorks Courses, SSSC, First Aid, Radio - Expressions of Interest

Marine SafetyWorks utilises two unique venues with the first day at Rose Bay, and the second at The Ace Training Centre to provide the most realistic wet drill training experience with wave and wind generators, and sound and light effects.
